Rawan Mohammad Barakat

Front-End Developer

barakatrawan81@gmail.com | +963937278362 | Latakia, Syria | GitHub: https://github.com/RawanBarakat-hub

PROFILE

Front-End Developer specializing in React.js and Next.js with hands-on experience building scalable and high-performance web applications. Skilled in TypeScript, Redux Toolkit, and real-time API integration. Passionate about clean architecture and delivering production-ready user-focused solutions.

EXPERIENCE

Front-End Developer Intern   Apr 2025 – Aug 2025
Focal x agency

- Built responsive web interfaces using HTML, CSS, JavaScript, and Bootstrap.
- Developed React applications in both individual and team environments.
- Applied clean code practices and effective debugging techniques.
- Used Git & GitHub for version control and collaborative development.
- Established strong foundation in modern frontend development principles.

Front-End Developer Intern (Advanced Level)   Aug 2025 – Feb 2026
Focal x agency

- Developed scalable applications using React & Next.js (SSR, SSG, API Routes).
- Implemented advanced state management with Redux Toolkit.
- Integrated REST & WebSocket APIs for dynamic and real-time features.
- Applied performance optimization and SEO best practices.
- Built reusable component architectures using TypeScript & Tailwind CSS.
- Collaborated on team-based projects using Git & GitHub workflows.

PROJECTS

Estatein   Live Demo | GitHub
Real estate web application developed collaboratively within a team using React, with direct integration to REST APIs and WebSocket for real-time property updates. The system includes an admin dashboard for property management and advanced search and filtering features, delivering a dynamic and responsive user experience following modern frontend best practices.

The Blog   Live Demo | GitHub
multi-page website built with React for displaying articles, featuring category-based filtering and dark/light mode toggle. The project utilizes Redux Toolkit for state management and follows a modular, scalable component architecture with modern frontend best practices.

Flora   Live Demo | GitHub
Landing page to showcase real estate properties and company services, developed and deployed using React (JSX), functional components, and Hooks, following clean and modular development practices.

Little learners   Live Demo | GitHub
Multi-page educational website built with React (JSX), using React Router DOM and Hooks, presenting institution information, teachers, and services with a clean and structured architecture.

Rawan's portfolio   Live Demo | GitHub
Personal portfolio landing page built with React, showcasing my profile, projects, skills, and contact information, following a clean and structured component-based architecture.

Focal X Dashboard   Live Demo | GitHub
multi-page website for managing an e-commerce platform, featuring authentication (login & registration) and full CRUD operations for products, fully integrated with a real REST API. The project follows modern frontend practices and clean code principles.

Travel around the world   Live Demo | GitHub

Tourism company website built with Next.js, utilizing Server-Side Rendering (SSR) and Incremental Static Regeneration (ISR) to optimize performance and SEO. The website showcases company information, services, travel offerings, customer reviews, and contact methods with a scalable, production-ready architecture.

Square up   Live Demo | GitHub

Digital agency web application developed collaboratively within a team using React (JSX), functional components, and Hooks. The platform showcases comprehensive information about the agency and its services, and includes an admin dashboard with full CRUD functionality, following a modular and scalable frontend architecture.

EDUCATION

Latakia university   **2019 - 2024**

Bachelor's degree

SKILLS

Frontend:
React.js, Next.js, TypeScript, JavaScript (ES6+), Tailwind CSS, Bootstrap, HTML5, CSS3, React Router DOM, Responsive Design

State Management:
Redux, Redux Toolkit

APIs:
REST APIs, WebSocket APIs

Tools & Version Control:
Git, GitHub

Soft Skills:
Problem Solving, Teamwork, Communication Skills, Time Management, Attention to Detail

LANGUAGES

Arabic (Native)

English (Upper-Intermediate)

German (Beginner)
